

TrellisWare Technologies, Inc.
Application No. 0828-EX-CN-2018
Narrative Statement Regarding Government Contract

Agency: U.S. Special Operations Command

Contract No: H92222-17-D-0024

Government POC: Mr. Christopher Yates, (813) 826-1355, christopher.yates@socom.mil

TrellisWare Technologies Inc. is currently under contract to USSOCOM to deliver software-defined tactical radios. In order to test and validate these radios using high power (25W) amplifiers, TrellisWare needs to conduct real-world testing at multiple frequencies in the 225-450 MHz band.

TrellisWare plans to operate in high power configurations only in the 245-250 MHz, 300-304 MHz 364-369 MHz bands. These bands are all outside the FAA's "Annex A" bands.
