Hi Tom

I believe we are 95% done here. After coordinating with the Region 9 Chair, it was deemed necessary to modify the Experimental License as specified in the Letter below.

Please contact me at your earliest convenience in order to coordinate this final step in our licensing.

Best regards,

Mac Elliott

561-912-6462

Boca Raton, FL.33487

RE: WC9XEY

Mr. Elliott:

The Florida Region 9 Committee members did not have any objections with the testing conditions we outlined in our June 28th meeting.

Therefore, please coordinate with APCO the modification of your experiential license to remove channels 866.1000, 867.1000, 866.5000 and 866.9000 Mhz. You may change the remaining channels to 866.2875, 866.6875 and 867.2875 Mhz respectively.

This letter is the RPC's authority necessary for APCO to file in your behalf. All other technical parameters of your license remain in effect. We are requesting that you contact the licensees that attended the June 28th meeting so they may be present for you initial testing.

Additionally, please forward a copy of your modified license to this office when your receive it for my records.

Sincerely,

A handwritten signature in black ink that reads "Ray Carlson". The signature is written in a cursive style with a long horizontal line extending from the end of the name.

Chairman, Region 9 Committee
