Call Sign KK2XCC
February 3, 1997
Exhibit A

Item No. 9, FCC Form 405

USWC's planned testing may not have a significant environmental effect, as defined in 47 C.F.R. Section 1.1307, because USWC has not and does not anticipate constructing facilities that fall into any one of the eight enumerated categories, as set forth in Section 1.1307, which would necessitate an environmental assessment. If this changes, USWC will comply with Section 1.1307's requirements.
