---

Message:

OK, Thanks. I have submitted a new application for an STA (Conf # EL341417, File # 0385-EX-ST-2010). You can dismiss the Form 442 application.

On the multiple locations question, we will have well over 100 locations we want to test from. Is there any way to submit these in a spreadsheet, rather than entering them one at a time in the new antenna section?

Thanks.
