

KySat-3 CubeSat Description
Kentucky Space - 1U

KySat-3 is a technology demonstrator that builds upon the resources developed under the KySat-1 and KySat-2 missions. This outlines a predominantly educational outreach mission for K-12 students. KySat-3 will feature upgraded components developed and built by Kentucky Space and its partner institutions (University of Kentucky & Morehead State University, etc). The satellite utilizes a communication system which is necessary to uplink commands and downlink data containing spacecraft health as well as payload test results.
