Subject: Additional Information Request

---

Message:

Please check your Frequency Request 2419.8 - 2440.05 MHz. Your requested Bandwidth of 25 MHz is greater than the difference of the start and stop frequency. This value should be less than the difference of the start and stop frequency.

The FCC's International Bureau requires the submission of SpaceCap data in order to complete evaluation of your application. In accordance with the provisions of Article 9.1 and Appendix 4 of the Radio Regulations, mandatory submission of a SpaceCap file for each individual space station is required. The software and instructions may be downloaded from the ITU link <http://www.itu.int/en/ITU-R/software/Pages/spacecap.aspx>. Change the extension of the ".mdb" file to ".txt" and submit the results to my FCC email address, [nimesh.sangani@fcc.gov](mailto:nimesh.sangani@fcc.gov)

Besides the SpaceCap, I would also need

- > SpaceCap Cover Letter
- > ITU Cost Recovery Cover Letter
- > NTIA Data
- > IARU Letter or EMC analysis (applications using amateur frequencies)

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of May 07, 2019 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
