Subject: Request for Info - File # 0226-EX-CN-2018

---

Message:

Hello,

We're currently experiencing an issue while attempting to upload our required documents, specifically the ODAR and Cost Recovery letter. We will attempt to re-upload in the morning, but have been unable to do so for most of the evening. The SpaceCap will be emailed as requested, and the Additional CubeSat information was uploaded successfully.

The "Add Attachments" link is displaying an error message:

Error 404--Not Found

From RFC 2068 Hypertext Transfer Protocol -- HTTP/1.1:

10.4.5 404 Not Found

The server has not found anything matching the Request-URI. No indication is given of whether the condition is temporary or permanent.

If the server does not wish to make this information available to the client, the status code 403 (Forbidden) can be used instead. The 410 (Gone) status code SHOULD be used if the server knows, through some internally configurable mechanism, that an old resource is permanently unavailable and has no forwarding address.
