Subject: FCC File No. 0235-EX-PL-2016

---

Message:

This application with file number 0235-EX-PL-2016 is related to 0249-EX-PL-2016 but distinctly different. We are build TWO satellites where TTC link frequency is the same by the payload frequencies differ slightly. Due to this difference and to the two satellite, we submitted two applications. Is this correct?
