Subject: Request for Info - File # 0020-EX-PN-2019

Message:

It appears that our call sign WA3XCD has been terminated because we filled for a second experimental license, which was granted under call sign WA3XDD. We did not intend the second filing to overwrite the first. These filings are for different zones/areas within Nebraska, which is why we thought we had file for a new call sign. We have subsequently filed for a third, which was granted under WA3XVD. Please let me know what it will take to get WA3XCD reinstated.

Thanks,
Blake France
