Subject: Request for Info - File # 0455-EX-CN-2019

---

Message:

Please provide the following information as IB requested:

- 1) There is a containment membrane made of Kapton, but it does not appear that containment of the ink was a part of shake testing. Please confirm that, if ink is released, it would evaporate or break down into very small particles.
- 2) Provide IARU coordination letter.
- 3) Technical description indicates both an internal and external camera. It stated that the internal camera will record the printing process but provide no information regarding the external camera. Please provide the purpose of the external camera and NOAA coordination.
- 4) Antenna patterns for a "Meshbed CubeSat". Please verify the correct CubeSat

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of August 08, 2019 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
