

Reason for Fee Exemption:

We are part of a research group at a federal university, the University of Utah, in the Department of Physics and Astronomy. The FCC fee page explains that “the regulatory fees do not apply to government entities, amateur radio operator licensees (other than amateur vanity call signs), and non-profit entities,” of which, I believe, we are.

Our federal tax ID number is 11874443-002-STC.

For more information or to see where the above number originates, please see the web page:
