

Renewal of Experimental License WG2XXJ

This application is fee exempt.

The application is filed by a state university for the purpose of prototype development as part of federally funded research (National Science Foundation).

The research supports the development of new a multi-antenna wireless transceiver architecture at 10GHz (9.5GHz-10.5GHz). It is partly funded by the National Science Foundation. The PI on the research is Prof. Akbar Sayeed of the University of Wisconsin.
