Leann,

IB/SD has reviewed the subject request and has the following conditions:

1. Licensee shall be aware that FSS earth stations are licensed above 3700 MHz and if any interference occurs, the experimental licensee of this authorization will be subject to immediate shut down.
2. Operations are on a non-interference basis (NIB) and shall not cause harmful interference to, and shall not claim protection from, interference caused to it by any other lawfully operating station and it shall cease transmission(s) immediately upon notice of such interference and notify the FCC in writing.
3. Experimental station shall use the minimum power level necessary to establish communications links to minimize potential interference to licensed users.
4. This authorization is without prejudice to any determination that the Commission may make regarding pending or future experimental satellite earth station applications.

Thanks,

Jeanette
