Federal Communications Commission
Experimental Radio Services
P.O. Box 358320
Pittsburgh, PA 15251-5320

Dear Sirs:

Enclosed is payment for a special temporary authority to operate radios previously licensed by FCC. The experimental license call sign was KA2XIK, file number 6105-EX-ML-1998. The Licensee is the Department of Geological Sciences, Seismological Observatory, Virginia Tech, Blacksburg Va, 24061. I have enclosed a copy of that experimental license. No changes have been made to the radios since original application was made, and all information on the enclosed Licence is accurate.

Sincerely,

A handwritten signature in black ink, appearing to read "Martin Chapman".

Martin Chapman
