

Explanation for Changes to License Application Exhibits

ABL, the launch provider, has notified the project that they have decided to conduct the first RS1 mission from Pacific Spaceport Complex Alaska (PSCA), Kodiak, AK, with an FAA license window of October 31 – November 15, 2021.

This will entail the following changes to the application:

- The launch site is PSCA Kodiak, AK
- The launch date is No Earlier Than October 31, 2021
- The orbit inclination is 87.3 degrees

These changes have been incorporated as needed in updated versions of the Technical Description, the NTIA Space Data Form, the Spacecap and the ODAR.
