Carlsbad, CA 92009  
United States

DISMISSED-WITHOUT PREJUDICE

Dear Daryl Hunter,

This refers to application, File No. 0383-EX-CN-2019, for an experimental authorization.

You are advised that the Commission is unable to grant your application for the facilities requested. The application is dismissed because NTIA objects to authorize the operation. This is not an experiment. The STPSAT-4 is a stage 4 operational Federal satellite system under a Federal contract. Pendergrass, GA was properly added as an earth station to SPS 22315/2. An assignment for this operation should be filed by the Air Force with NTIA after successful completion of SBE coordination.

Responses to this correspondence must contain the Reference number : 51108

Sincerely,

Anthony Serafini  
Chief  
Experimental Licensing Branch
