Subject: Request for Info - File # 2172-EX-ST-2019

---

Message:

Leann,

In response to questions by the Navy:

1) Provide the center frequency

The testing requires a 1 MHz carrier that can be tuned to customer desired frequencies within the band for performance testing.

2) Provide a more legible copy of the Radiation Hazard Analysis

I have uploaded the document again but am not sure if this is what is asked for.

Please reach out to me directly for any questions.

Regards,

Steven Hemple
