**Subject:** RE: Coordination for 0310-EX-ST-2010

Hi Ms. Nguyen,

The proposed bands are allocated to Low Power Broadcast Auxiliary service under Part 74H, and there are a great deal of low power operations within the close distance of the proposed test site.

The Virginia Tech states that it will coordinate with the local Society of Broadcast Engineers prior to conducting a test on the proposed frequency bands. Broadband Division has no objection to this request as long as the applicant will do so.

Thanks,  
Thuan Pham
