---

Message:

Mr. Lewis,

Your email or exhibit does not state why are you requesting the 950-956 MHz band if you only expect to deploy in the 902-928 MHz band?

Since there is microwave in the area, Wireless Bureau would not support giving an experimental STA in the 950-956 MHz band unless you do a detailed analysis that shows PS operations will not be affected. Please provide a detailed analysis that shows PS operations will not be affected.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of November 04, 2009 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
