Willful false statements made on this form are punishable by fine and/or imprisonment (U.S. Code, Title 18, Section 1001), and/or revocation of any station license or construction permit (U.S. Code, Title 47, Section 312(a)(1)), and/or forfeiture (U.S. Code, Title 47, Section 503).

**WESTINGHOUSE COMMUNICATIONS SERVICES, INC.**

**[Response to FCC Form 405, Question 9, Environmental Impact]**

Pursuant to Sections 1.1306 and 1.1307 of the Commission's rules, this application is categorically excluded from environmental processing. Specifically, the facility for which renewal of license is requested is not located in an area specified in Section 1.1307 (a) (1) through (7) of the Commission's rules and does not utilize high intensity lighting so as to be subject to environmental analysis under Section 1.1307 (a) (8).

**[Fixed Ground Radar Site]**

The facility further complies with the Commission's Radio-frequency Protection Guidelines specified in Section 1.1307 (b) of the Commission's rules. Through fencing and appropriate warning signs, public access to any area in the vicinity of the facility in which the level of radiofrequency radiation exceeds American National Standards Institute (ANSI) C95.1-1982 Guidelines is restricted. This potential exposure area is determined by procedures outlined in OST Bulletin No. 65, "Evaluating Compliance With FCC Specified Guidelines For Human Exposure To Radiofrequency Radiation." Furthermore, whenever the facility is being utilized to transmit radiofrequency energy, worker access to the potential exposure area is restricted through visible and/or audible warning devices. Furthermore, the onsite project manager is periodically briefed on radiofrequency safety procedures.
