AUG 17 1995

National Science Foundation  
Attention: Ms. Emma R. Dieter  
4201 Wilson Blvd.  
Arlington, VA 22230

Dear Ms. Dieter:

This is in response to your letter of July 28, 1995 requesting a waiver of vessel inspection user fees for the Federally-owned vessels KNORR, L7738618; ATLANTIS II, MS8201A; MELVILLE, CF0719XS; THOMAS G. THOMPSON, D976826; and MAURICE EWING, NY6034FL.

Pursuant to CFR 2.10-10, payment of the vessel inspection user fees for the above vessels is waived based on your certification that the fees would be paid with Federal appropriated funds.  
This entry will be noted in our files and you should not receive further fee notifications.

Should ownership of any of these vessels be transferred to an entity other than a Federal agency or the source of funding change to a non-appropriated source, please notify this office at your earliest convenience. By October 1, of each year the National Science Foundation should provide Commandant (G-MPR) with a list of the vessel names and vessel identification numbers for which a fee waiver is requested.

*R/V Atlantis is the replacement  
for Atlantis II. It is owned by  
US Navy, and is funded by  
US Government.*

Sincerely,

A handwritten signature in black ink, appearing to read "M. R. Devries", enclosed within a hand-drawn circle.

M. R. DEVRIES

Lieutenant Commander, U.S. Coast Guard  
Chief, Resources and Budget Branch
