Dear Mr. Cassella,

I am writing to request coordination with FAA on an FCC experimental license (NGT numbers). This is an modification of an existing experimental license originally issued in 2007 for which David Harris of FAA Regional Office provided coordination.

David tells me that this coordination is now in your hands.

I am attaching a memo with the technical details of the request.

Please feel free to contact me if you have any questions.

Sincerely,
Warren H. Ziegler, Ph.D.

Warren,

Coordination numbers follow each request below. Each one is a band assignment K505 to K515

On my records I have shown the renewals as associated with the K505 to K510 assignments, then extended the range to K515. This seems to make more sense in light of the associated BW Emissions and record notes.
