Subject: Request for Info - File # 0407-EX-PL-2015

Message:

You have requested confidentiality for the entire application. As a matter of policy, we will not withhold from public any information necessary for interference mitigation. This includes applicant name, contact info, location, frequency and power. If there is nothing in the form itself that cannot be released to the public, state this.

The confidentiality request form you submitted is not applicable to experimental licensing. You must separate out all confidential material from the rest of the application, submit the confidential information in exhibits separate from the non-confidential information and submit an item-by-item justification for the confidentiality request to answer the nine subsections of Part 0.459(b) of the FCC's rules. All non-confidential material must be viewable by the public, including the confidentiality justification.

Is the treatment of the equipment in this request similar to that of your previous requests in 0525-EX-PL-2015 and 0077-EX-RR-2013? Will the equipment be retrieved at the end of the test? Who will be the point of contact (with phone number) to terminate transmissions if interference occurs?

What is the justification for the large number of units? Why is a three-year license necessary before equipment approval?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of June 26, 2015 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
