Subject: Request for Info - File # 1012-EX-ST-2020

---

Message:

As regards your correspondence related to STA Application File Number 1012-EX-ST-2020

1. Explanation of how it would coordinate any usage with a Spectrum Access System (SAS).

Response: There is currently no authorized SAS in Puerto Rico and, even if there were a SAS, there is no Environmental Sensing Capability at the present time.

2. Explanation of how it would specifically avoid causing interference to incumbent and commercial operations in the band, including General Authorized Access (GAA).

Response: Because there is no SAS or ESC for Puerto Rico, there are no commercial operations in the band. Aeronet has agreed to coordinate with the Arecibo Observatory, the only known incumbent.
