

**REQUEST FOR THE WITHDRAWAL OF PENDING APPLICATION**

WorldVu Satellites Limited (“OneWeb”) recently submitted Form 442 for a request to modify and renew their experimental license under call sign WK2XGK. After said submission, OneWeb recognized that both actions are not compatible under the same submission and that a separate (Form 405) must be submitted to renew their application first. With this document, OneWeb states their intention to withdraw the recently submitted Form 442 modifications, in order to take the appropriate steps in first renewing, then modifying the existing license.
