Hi Anthony

See my reply as below:

"Are you working with government agencies? "

No, it is just used for demonstration of the TDD LTE Massive MIMO technology.

If 3400~3650 MHz is not available for the application area, could I get part of it?  
such as 3540~3650, or 3550~3650?

Thank you for your time!

Mike
