I received the notice file 1599-EX-ST-2021 was dismissed without prejudice due to NTIA objection. Internally, we are proposing to switch to 2211 MHz and 2287.5 MHz frequency IAW 47 CFR §2.106(a) with 7.8 MHz (10Mbps) at 99% occupied bandwidth, with a -3dB bandwidth of 3.9 MHz. If we need the 99% occupied bandwidth to be below 5MHz, we can switch to a bandwidth of 5MHz at 6.4Mbps. Do you believe this will mitigate other agencies' concerns?

At this time, ABL is associating receiving an STA grant as a program risk. We would like to work with you to find a path forward which would mitigate interagency concerns and provide ample time for your review of our application materials. Do you have availability for a 30 minute phone call this or next week?
