FCC File # 0379-EX-ST-2004

---

Message:

In your June 28, 2004 correspondence, the Commission asked:

We will consider a limited link budget test in four cities with a severe reduction in units.

Also, we will consider a full system test in one city of your choice.

Please be advised that using an experimental license to create a business is beyond the scope of an experimental license.

The applicant requests the full system in Biloxi MS and reduces the number of units requested for the remaining markets to 50 units each.

We hope this updated request will allow the Commission to issue the STA and experimental license requested.
