Subject: 1540-EX-ST-2019 pre-coordination data request

---

Message:

I uploaded PDF file of the email assigning 108.35 and 333.95MHz for use by ANPC, sent by Dennis Hughes at FAA (dennis.r-ctr.hughes@faa.gov). I emailed Mr. Hughes this morning to ask if a more formal approval will be sent later. The FAA coordinators may also be waiting for approval from NavCanada before sending a formal approval (the transmitters will be located in central Washington state). Also you can contact me direct at 541-399-1392.
