Special Conditions:

- (1) In lieu of frequency tolerance, the occupied bandwidth of the emission shall not extend beyond the band limits set forth above.

Special Conditions:

- (2) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
- (3) Licensee is required to receive prior authorization by the FAA to install transmission equipment upon aircrafts. This license does not constitute a judgment of approval by the FAA.
- (4) Licensee shall coordinate with fixed service licensees in the 2450-2483 MHz to avoid interference.
