The periods include setup and testing prior to the event. This is a major event televised worldwide. Should any authorized entity using this band report interference during the proposed operations, operation on the offending channel will immediately cease and not resume unless and until the interference complaint is resolved to the satisfaction of the authorized user.

Other licensed channels normally used for video production in this frequency range are not available for this event due to their use by other licensees and authorized services.

The stop buzzer contact for this operation is Trevor DeEll who can be reached at 203-258-1951 or by email at tdeell@nepgroup.com
