Subject: Additional Information Request

Message:

In addition to my previous email regarding the beam pattern

The Information you provided to me :

The STA is necessary to operate transmit testing equipment in support of the development of a communication MESH network for high-altitude balloon systems with a transmit frequency range 2450-2840 MHz.

But the actual frequency request in your application is for 2450-2480 MHz.

Fix one of them in your application. Inform me via email once you have addressed all the questions/concerns.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of February 03, 2020 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
