

**Request to Renew WM2XNB
AFTRCC Coordination and Revision to Stop Buzzer**

AeroVironment, Inc. (AV) presents this application to renew experimental license WM2XNB. No changes have been to the operating parameters of the current authority.

An updated AFTRCC coordination is presented in the attachment file.

AV requests the Commission revise the individual noted on the license as the Stop Buzzer:

Omer Yingling, AV's Director of Flight Standards, is available by telephone or electronic mail at 805-791-1894 and Yingling@avinc.com and will act as a stop buzzer if any matters involving interference arise during the testing.
