Subject: Request for Info - File # 0332-EX-CN-2026

Message:

Good morning Matthew,

I reviewed your Exhibi, and I have some follow-up questions regarding the scope of your request. In your narrative, you state:

"6.a. The nature of the research project being conducted is to support testing of an experimental control link with a set of radio transmitters in accordance with Title 47, Chapter 1, Sub-chapter A, Part 5, Subpart A, Section 5.3(a)(c-h) and (k), 5.5 and 5.54(a)(2)."

At this time, the description is too broad and lacks sufficient supporting detail. Please provide clarification on the following items so we can properly evaluate your application:

1. If this experimental license is being filed in support of a U.S. Government contract, please provide:
 - a. Contract number
 - b. Contracting agency
 - c. Government Contracting Officer (or Government POC)
 - d. POC email and telephone number

Please note that applications tied to government contracts must be submitted as standalone filings. This can't be merged with your company's internal R&D.

2. Will you be conducting any field strength surveys under this license? If the answer is No then please revise the scope of service in the narrative.

3. Will this license be used to conduct a market trial? (Yes/No)

If ****yes****, please respond to all of the following:

- a. Have you entered into any contractual agreements with trial participants?
- b. Will any fees or payments be collected from participants? (Yes/No)
- c. Will all equipment be retrieved from participants upon conclusion of the trial?

4. You referenced 47 CFR §5.54(a)(2), which applies to Special Temporary Authority (STA), but you filed for a conventional experimental license. §5.54(a)(2) is cited in a conventional application and this appears to be done so in error. Please remove this mention along with 5.5.

5. Please provide the Stop Buzzer point of contact information, including:

- a. Name
- b. Direct telephone number (not a general line or voicemail-only number)

Once we receive this additional information, we can continue processing your application.

Please let me know if you have any questions.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of May 20, 2026 may result in

application dismissal pursuant to 47 CFR § 5.67 and forfeiture of the filing fee pursuant to 47 CFR § 1.1111.
