Leann,

Sorry for the delay.

I had our engineers verify that the 7.317 watts is correct.

Thank you.

Bill Gordon

Mr. Gordon,
As the information that you provided, the EIRP value will be 12 Watts.
If we convert this value to ERP (Watts), it should be 7.317 Watts.
Because the application system is requested to enter ERP value, please confirm this value.

Regards,
Leann Nguyen
