Subject: Request for Info - File # 0785-EX-ST-2015

---

Message:

In response to the request from NTIA the applicant has amended the application to specify only two of the seven channels allocated in this band. The request is now for 2085.5 to 2109.5 MHz (channels 6 and 7 - 2091.5 and 2103.5 MHz). These channels were selected based on a recommendation from the local SBE coordinator. In that this band is shared with other similar users, the original request was to allow for local coordination flexibility as the applicant had never intended to use all seven channels at the same time.
