

Due to public safety issues with establishing communications systems for first responders we are requesting an expedited process of this application.

These demonstrations and eventual sale of the products will greatly assist with establishing communications networks for state, local, and federal agencies. It will assist in saving lives, and property by providing first responders with quick and easy to install communications services necessary for their job.

Thank-you in advance for reviewing this application. If you have any questions, please feel free to contact me.
