Subject: Emission designator

Dear Mr. Kennedy,

For some reason I cannot get the link

(https://gulfoss2.fcc.gov/prod/oet/index_els.html) to work properly on my computer so that I can respond to your question properly. So I hope this email will be okay. Your question was: Is the emission designator for the Orient, TX antenna 1M25D7W ? The answer is YES. Please let me know if there is anything else you need.

Thanks,

Jake Holland
