PRODUCT DESCRIPTION:

The OMNI-A0135 is a wideband, high-gain omni-directional antenna for use in the 1.6 to 1.9 GHz upper L-band frequency range at power levels up to 20 W. The antenna utilises a collinear dipole array radiator with integrated balun, making it groundplane independent and suitable for use on any mounting platform, such as manpacks and mobile electronic devices. The antenna is designed and intended for use in extreme operational conditions.

PRODUCT FEATURES:

- Collinear design gives better gain than dipole and monopole antennas
- Low VSWR across the band
- Rugged and lightweight

APPLICATIONS:

- Communications
