Dear Mr. Wright:

Re: Experimental License KB2XTH, File 3554-EX-ML-93

This is to request a modification to the American Telephone and Telegraph Company Experimental License KB2XTH to add emission designator 30M0GZW to the frequency range of 1850-1990 MHz. This authority is needed to perform experimentation with indoor wireless Personal Communication Systems to characterize propagation at 1850-1990 MHz with a 30 MHz bandwidth.

Attached are the following:

- 1 - FCC Form 442
- 2 - Check for \$35.00 to cover filing fee
- 3 - Copy of KB2XTH license

Your prompt attention to this matter will be appreciated.
