Application Narrative for Proposed Equipment

Proposed Program

Anadarko Petroleum Corporation is proposing GPS within their Single Point Anchor Reservoir facility for testing purposes.

Objectives

We seek to accomplish the following objectives:

1. Illumination of the part of the facility, located at 26-7-55 N 92-2-25 W (Gulf of Mexico) with a GPS signal to allow for the testing and experimentation indoors for continued exploration of utilizing GPS technologies within petroleum tools to provide innovative applications and continue to provide safe products and safe usage of tools.
2. Further design, development and enhancement of existing GPS applications to provide greater efficiency and more effective means of utilizing GPS derived information.
