

CONOP:

1st Phase: ~02 August

- The BLUE FORCE is expected to cross the river from their initial location on the Eastern land mass. Dust and Tower will be installed at each possible landing location of BLUE FORCE's Amphibious Vehicles.
- The 2x Dust on the NE side of the peninsula will relay thru a Dust repeater installed on the opposite landmass in order to communicate to the Tower
- The Southern Dust will be outfitted with a prototype LTE device in order to transmit directly to Cloud.

CONOP:

2nd Phase: ~04 August

- The BLUE FORCE is expected to push into the Peninsula and force the RED FORCE to retreat SW into Camp David
- In order to inform decision points during BLUE FORCE advancement, 2x Dust will be moved from prior location to location along the expected route of advancement.
