

APPLICATION FOR EXPERIMENTAL AUTHORITY

Anduril Industries respectfully requests authority to operate 1 Texas Instruments AWR2944EVM, 1 Ainstein I-79, 1 Navtech Radar MAS-10, 1 SmartMicro DRVEGRD 166, 1 Texas Instruments AWR2188EVM, and 1 SmartMicro DRVEGRD 171 radars at mobile locations near Ventura, California.

The radars would use the bands: 76000-81000 MHz, 76000-77000 MHz. Experimental operation of the radars would allow Anduril Industries to characterize the system's detection performance and better understand the radars capabilities when paired with uncrewed aircraft systems and unmanned ground vehicles.

1. Company Background

Anduril Industries is a limited liability company specializing in technological innovation. This submission includes confidential and proprietary information related to technological advancements in radio communications. Anduril Industries' address of record and Registration Number are as follows:

Anduril Industries

1400 Anduril

Costa Mesa, CA 92626

FRN: 0028824514

2. Station Location

At Location 1 (Ventura, California), Anduril Industries will operate radars at coordinates 34-15-03 N, 119-17-32 W. Operations at this site are mobile ground and restricted to the water within a 5 km radius of the center point.

3. Frequencies

The radars would use the following bands: 76000-81000 MHz, 76000-77000 MHz. Anduril Industries will comply with any limitations applied to non-Federal users in these bands pursuant to the FCC Table of Frequency Allocations located at 47 C.F.R. § 2.106. Anduril Industries will operate with the minimum necessary power to conduct its operations and will not exceed the power levels specified in this application and will operate with the emissions, modulation techniques, and frequency ranges specified in this application.

4. Safety

Anduril Industries will comply with FCC rules and regulations regarding the operation of transmitting antennas. All power levels will comply with the limits set forth in the FCC's rules, including those relating to human exposure to radiofrequency radiation. In addition, all

¹ See 47 C.F.R. § 5.115.

personnel who will operate the equipment are knowledgeable as to the effects of radiofrequency energy and will have the ability to control their exposure.

5. Interference Protection

The proposed test location is some distance from aircraft landing site (9 kilometers). Anduril Industries recognizes that the operation of any equipment under experimental authority must not cause harmful interference to authorized facilities. Anduril Industries also recognizes that its proposed operations may require coordination with existing licensees authorized on the requested frequencies.

Anduril Industries will fully coordinate and operate on a non-interference, non-protected basis with anyone affected or reasonably likely to be affected. Should interference occur, Anduril Industries will take immediate steps to resolve the interference. For instance, it will operate on another authorized frequency, provided such frequency is not within the restricted frequencies set forth in 47 C.F.R. § 15.205, or it will discontinue operation.

6. Restrictions on Operation

Anduril Industries recognizes that permission to operate under FCC experimental authority confers no long-term rights. Anduril Industries does not propose to market, sell, or lease equipment to end users or conduct a market trial in conjunction with these operations.

Anduril Industries recognizes the time and non-renewal limitations on a Temporary filing, and will proceed with a license filing if any system(s) produce desired results following the test period.

7. Request for Waiver of Station Identification Requirements

Anduril Industries requests a waiver of the station-identification requirements in section 5.115 of the Commission's rules.¹ Grant of the requested waiver will promote the public interest by allowing Anduril Industries to determine the most effective operating capabilities of the equipment as part of this operation.

8. Technical and "Stop Buzzer" Contact Information

If Anduril Industries must terminate operations due to any interference concerns, the technical and "stop buzzer" point of contact is as follows:

Kevin Heald

Anduril Industries

1400 Anduril

¹ See 47 C.F.R. § 5.115.

Costa Mesa, California 92626

Telephone: [949-512-5602](tel:949-512-5602)

Email: kheald@anduril.com

For these reasons, Anduril Industries respectfully requests approval of experimental authority.
