Subject: Request for Info - File # 1342-EX-ST-2026

---

Message:

We would comply with the out of band emissions limits specified in Section 25.202 of the Commission's Rules. We recognize the higher proposed frequency band, 16.5-17.7 GHz, is adjacent to 17.7-17.8 GHz band and presents risk of interference in the event of spillover. All operations will be conducted with the minimum required power, and avoid the top end of this frequency band where possible.
