Message:

I apologize for the error in specifying the frequency band in the application, File Number 0630-EX-ST-2012. The CORRECT frequency band) which was in error in the data entered but correct in the exhibit to the application), is 450-470 MHz.

If it is necessary to amend the pending STA application, I will do so immediately. Thank you for your notice and again I apologize for the confusion caused by my error.
