Subject:

FCC File # 0727-EX-ST-2004

---

Message:

John: I have provided the below clarification per your request:

1. The corrected coordinates for the Raytheon Huntsville testing site at 306 Wynn Drive are:

34 Deg 44 Min 32.58 Sec North Latitude

86 Deg 39 Min 8.82 Sec West Longitude

2. Regarding the mobile/fixed status of the RBGAN transmitter.

The Inmarsat RBGAN satellite transmitter will be used ONLY in a temporary fixed application.

The RBGAN transmitter will NEVER be used while moving (mobile).

Hope this clears the way for the STA to be issued. Sorry about any confusion.

Thanks for your speedy reply,

Greg True
