

Aprize Satellite Inc.

Exhibit 2

Other Particulars – Addition

This modification of the FCC authorization granted to Aprize Satellite Inc. (0209-EX-PL-2003) on May 26, 2004, is for the purpose of adding S-band frequencies to its experimental program. We request 400 kHz of experimental spectrum in the band from 2200 MHz to 2310 MHz. The requested frequency will be used by an Aprizesat experimental payload ship tracking system which will collect data for customers, including the Naval Research Lab, Homeland Security and the U.S. Coast Guard.
