Subject: Experimental application 0209-EX-PL-2003

In response to your e-mail correspondence of November 10, 2003, please be advised that, as requested, I contacted Shana Ghavami at the International Bureau to discuss our testing and there does not appear to be any outstanding issues in this regard.

Also, please note that our mailing address in the application should be corrected to read 3554 Chain Bridge Road (not 554), Suite 103, Fairfax, VA 22030.

I also wish to inform you that pursuant to the FCC rules and regulations of Part 25, Subpart B, Sec. 25.113 (f), we plan to commence construction of the two satellites which are the subject of our application later this month at our own risk for a planned launch date of March 31, 2004.
