Re: Aramco Services Company;
Experimental Radio Service
Application for New Portable
INMARSAT Terminal Facilities

Gentlemen:

Transmitted herewith, on behalf of Aramco Services Company (ASC), is an application completed on FCC Form 442 wherein this applicant seeks authority to operate INMARSAT-type approved transportable earth stations. The applicant proposes to operate these facilities as necessary to support the containment and or clean up of oil spill. This application is accompanied by a check drawn to the order of the Federal Communications Commission in the amount of \$35, as well as an appropriately completed FCC Form 155.

Submitted simultaneously with this application is a "Statement of Intended Use of a Transportable Land-Based INMARSAT Terminal". It is believed that the Commission will find this application to be complete and in order for early consideration.

Should questions arise during the Commission's review and consideration of this application, it is respectfully requested to communicate directly with this office.

Very truly yours,

Rick D. Rhodes
