

ARCO International Oil and Gas Company
2300 West Plano Parkway
Box 260888
Plano, Texas 75026-0888
Telephone 214 754 3000

W. C. (Bill) Malcom
Sr. Staff Geophysicist
PAI-J2443
(214) 754-4326

December 28, 1993

**FCC FORM 442
EXHIBIT 1**

In answer to item 10 on the FCC FORM 442:

- a) The new INMARSAT "A" terminal will be setup and tested at the ARCO International Oil and Gas facility in Plano, Texas in early January, 1994. After one or two days of testing voice and data communications the unit will be shipped to Puyo, Ecuador in support of ARCO sponsored Geological field work.
- b) The voice and data transmission ability of the new terminal will be verified in Plano, Texas before the system is shipped to Ecuador.
- c) The unit will be verified in Plano, Texas and will be used to vastly improve communications from a remote area of Ecuador to the United States.

**FCC FORM 442
EXHIBIT 2**

In answer to item 11 on the FCC FORM 442:

a) The new INMARSAT "A" terminal will be setup and tested at the ARCO International Oil and Gas facility in Plano, Texas in early January, 1994. After one or two days of testing voice and data communications the unit will be shipped to Puyo, Ecuador in support of ARCO sponsored Geological field work.

b) This terminal will be used in various countries around the world on various length jobs and will be returned to Plano as needed for repairs or upgrades. Please extend this authorization through the end of 1995.
